Stunning Techno Veneer Projects

New Website on the way!

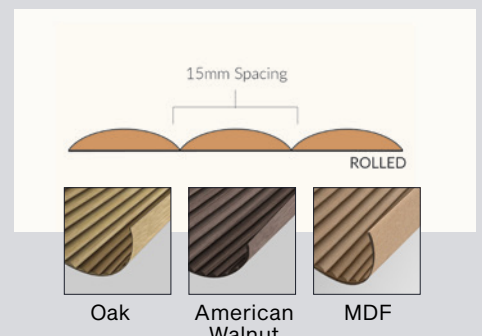

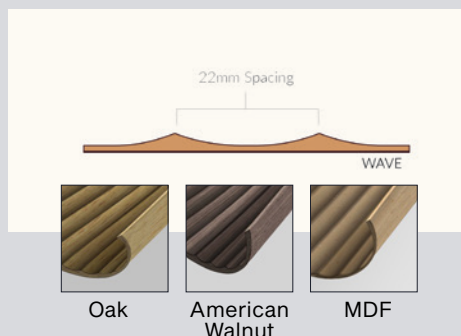

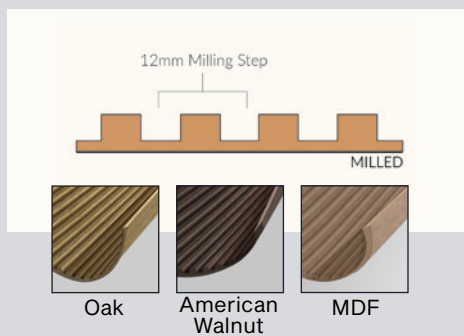

**Design
Edge V7**

Fresh New Designs

Plymasters has had a roaring start to the year and we have seen some awesome projects so far. From our popular new Techno Veneers to our elegant Timber Veneers, we have some beautiful projects to share with you. 2024 has seen some changes with our Sales Executive roles including a new face out on the road. Plus a new web look is on the way and more in this edition of Design Edge.

Techno Veneers

Our Techno Veneers have been making waves and we are wowed by the extraordinary projects that our clients have been creating. Elevate your interiors with Plymasters' Techno Veneers, thoughtfully curated for the New Zealand Market. Transform walls, furniture and cabinetry with these Italian-produced veneers, available in Oak, American Walnut and Paint-ready MDF.

Wave Techno Veneer

Glen Johns Kitchens - Bariball

The Bariball project makes the most of our Paintable MDF Techno Veneer to create a white, curved counter that adds to the calm and harmony of this kitchen.

Wave Techno Veneer builds a sophisticated profile with its unique texture and flexible capabilities. Creating visual interest and enhancing the welcoming ambiance of the space.

Milled Techno Veneer

Melanie Sa'u - Cockle Bay Kitchen

Curves, texture and serene colours are the key design elements of the Cockle Bay Kitchen redesign by Melanie Sa'u.

Milled Techno Veneer - painted an elegant blue - is the star of the show. Wrapped around the cabinetry and kitchen island, our Milled Techno Veneer has been utilized to honor the round wall, turning curves into a purposeful feature in the kitchen.

Paired with the finger tiles, the Milled Techno Veneer introduces texture, enriching the aesthetic of the design.

Sa'u successfully melds function, flow and beauty in the Cockle Bay Kitchen redesign to celebrate the unique curves and angles of the kitchen while revitalizing it with modern elements.

Furnier
American White Oak
(Stained)

Scorched White Oak

Back to Nature Carpentry - Japandi Kitchen

At Plymasters we love supplying high quality materials so that talented craftsmen can create incredible projects.

Beautiful grain pattern meets elegant design in this Raglan kitchen, masterfully built by the Back to Nature team. To create the calming, Japandi style kitchen, our Furnier - American White Oak on Birch has been finished with Osmo polyx terra tint, resulting in a scorched oak look that pairs perfectly with the rich green tiles.

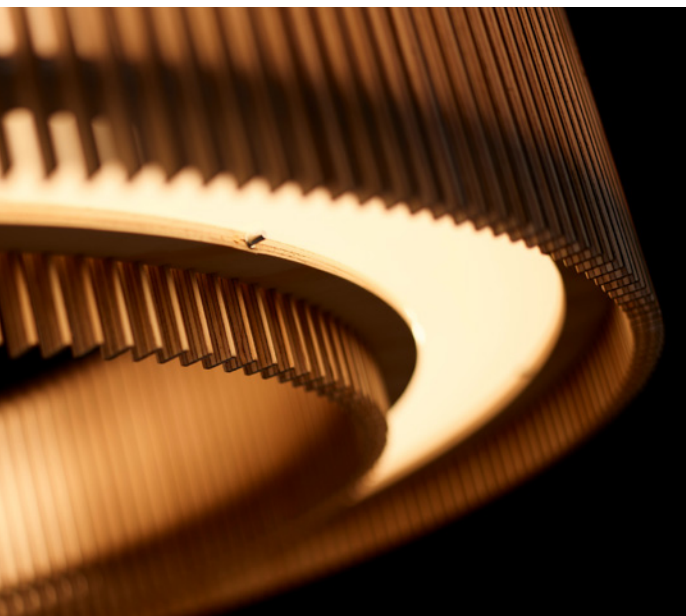

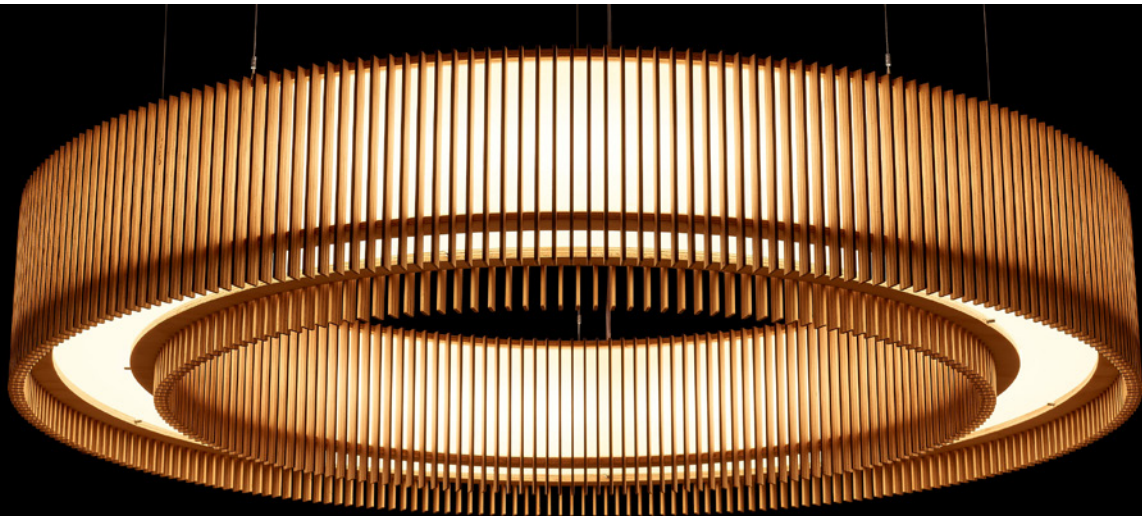

Smoked Larch

B-Spoke Kitchen Company

The modern industrial interior design style creates elegance with the use of exposed concrete matched with deep wood tones. This design style uses materials in their roughest and rawest forms, elevated by black and sleek detailing. Our Smoke Larch is an unbeatable choice for this look, with its striped grain pattern and beautiful rich tones.

Plymasters Smoked Larch gives a natural warmth and depth to the cabinetry and matches perfectly with the stunning origami ceiling. This refined design by the B-Spoke Kitchen Company showcases the balance and cohesion that natural materials like timber veneers can bring to modern industrial designs.

NZ Pine Pendant Light

MAKER Design Studio

Our NZ Radiata pine, grown here in New Zealand, comes alive in the warm glow of the iO Phoebus pendant light by MAKER Design Studio. Designed and manufactured in Tauranga, this dreamy feature light is an example of the amazing results that can be created when premium NZ products and creators come together.

Made with our SS grade Premium NZ Radiata pine, the iO Phoebus is a 1.2m pendant light that is sure to wow guests and bring that extra flare to your space. The MAKER Design Studios' pendant light range is the perfect showcase of the versatility of plywood.

New Dreamy Eucalyptus!

Seahorse Property

Relax just 2 minutes from the beach at the charming Salt guest house in Gisborne. Our brand new, charismatic, striped, Eucalyptus Veneer adorns the ceiling of this cozy little air bnb.

Stretching over the ceiling through out, Classique Eucalyptus adds warmth and cohesiveness to the whole house, creating a welcoming environment for guests to rest and relax.

Available unfinished and pre-finished this Eucalyptus Veneer, with a lightweight poplar core, is the latest in our Classique plywood range. The attractive stripe grain pattern makes this decorative interior ply a classic choice for linings and feature walls.

Charisma Black

Mastercraft Kitchens by Healey

Black is the stylish feature in this kitchen - black pendant lights, black bar stools and of course our brilliant Black Charisma Acrylic.

Striking exposed edge cabinetry ties the kitchen together with the wood tones matching the grooved feature wall. The team at Mastercraft Kitchens by Healey have done a smashing job creating this suave black kitchen.

Get to know your Sales Executives!

Fraser Currie

Fraser is our fantastic sales manager who enjoys meeting amazing people in all the cool places that he gets to visit as he travels around New Zealand.

On the weekends Fraser puts on his own builders apron and gets to work doing building projects around his home and the community.

Chloe Hoskins

Chloe is our Sales Executive helping you achieve your ply and panel dreams in Auckland, Waikato and the Coromandel Peninsula.

She is a plant enthusiast who can be found in her kitchen whipping up something delicious. Chloe loves the tight knit, family and supportive vibe that Plymasters offers her.

Derek McInnes

If you're in the Central and Lower North Island, Bay of Plenty and the Tasman then you'll be familiar with our Sales Executives Derek!

Derek enjoys working with our supportive team and our great range of products.

With a passion for wood working he can be found creating cool upcycled projects on the weekends.

Isaac Currie

Isaac has stepped into a Sales Executive role this year. If you're in Taranaki, Manawatu and West Auckland you'll be seeing his friendly face this year.

Isaac loves working in a team environment and on the weekends he likes to hang out with his mates and have a good beer.

New Features

We have been working hard behind the scenes to create an awesome new website. View pricing, stock availability and get inspired with our product and project pages. Plus much much more in our website refresh. So keep an eye out for our fresh new look!

Construction Ply

Construction Ply
CD Structural Pine Ply

CD Structural Pine Ply

With an AS/NZ2269 certificate you can be sure that our CD Structural pine has the structural and bracing integrity that you need for your next DIY or Construction job. Rely on consistent performance, workability and sustainability when you use our Structural Pine Ply.

This ply has a CD face with no open face knotholes and limited synthetic repairs. For flooring, interior linings, roofing substrates and jobs that need the guarantee of extra strength, go for our CD Structural Pine Ply.

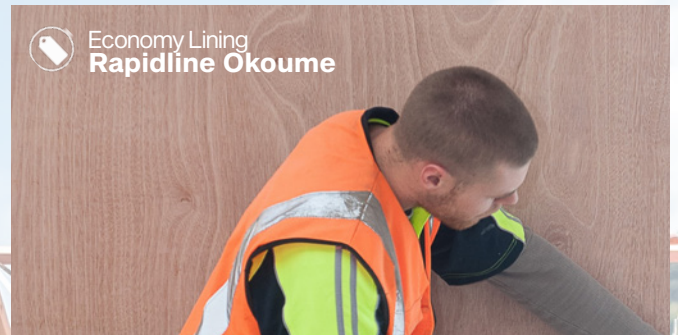

CD has one sanded C face, while the D face allows for some unfilled knots & splits. With a marine glue our ply is a fab fit for interior construction jobs.

Rapidline

Our Rapidline range is the go to for cost-conscience projects. The lightweight poplar core ensures easily handling and application. A great choice for garage and shed linings with Okoume, Birch, Prefinished Birch and Pine veneer options to suit your project.
