Plymasters

Building Product Information Sheet

Designated building product: Class 1

Product

Name	Rapidline Pine
------	----------------

Description

Economy grade, Radiata Pine veneer on a Poplar core ply. Sanded finish. Specifically for budget conscious projects. Non-structural CD grade plywood.

Technical Specs

Available Sizes	2400 x 1200
Available Thickness	4mm, 12mm, 18mm
Colour	Light brown/white
Glue bond	Interior Glue Lines
Origin	China
Core	Poplar

Ideal Uses

- Wall and Ceiling Linings for Sheds
- Bach's & Man Cave Linings
- Sleep-out Linings
- Lights Commercial Projects

Limitations of Use

Not for exposed external use. Not for use in fire surrounding applications. Not to be used in areas directly exposed to water.

Handling & Application/ Plywood is a natural product that can be affected by changes in weather conditions: moisture and temperature. Increased moisture content or temperature variation may cause internal stresses causing previously flat sheets to bow. At Plymasters, precautions are taken to minimize this effect. However, once the plywood has left our warehouse we cannot guarantee sheets to remain flat unless fastened. This is particularly important with pine ply (as it is a softwood), where free standing kitchen/cabinet doors are concerned. When storing panels, stack on a firm raised base with enough support to prevent sagging. Cover the pallet to protect top and edges.
