

# Euro Poplar

## Specification Sheet

Plymasters Euro Poplar is a high grade interior ply with excellent edge detail. Poplar is widely used for its weight saving features in fit-outs for mobile homes, boats and caravans. The lightest colour in Plymasters' range of plywoods, this product is manufactured from 100% renewable, plantation-grown timber. Perfect for tiny home manufacturing.

### Product Info

Code	Sheet Size	Thickness	Lay-up	Weight	Grading
E1006	2500 x 1220	6mm	5Ply	7.5Kg	CC
E1009	2500 x 1220	9mm	5Ply	11.4Kg	CC
E1012	2500 x 1220	12mm	7Ply	15.3Kg	CC
E1015	2500 x 1220	15mm	7Ply	18.4Kg	CC
E1018	2500 x 1220	18mm	9Ply	21.5Kg	CC
E1025	2500 x 1220	25mm	11Ply	30kg	CC

### Technical Specs

Colour	Light Blonde
Durability	Good durability / interior
Material	Excellent lightweight & matching properties
Origin	Spain
Environmental	Sustainable - PEFC / 14 - 34 - 00002
Emissions	Class E1, as per EN 717-2

### Ideal Uses

- Motor-home and Caravan Fit-outs
- Wall Linings
- Tiny-house Interiors
- Lightweight Cabinetry

**Handling & Application/** Euro Poplar Ply is a softer timber than other plywoods but does harden once a good quality lacquer is applied. Plywood is a natural product that can be affected by changes in weather conditions: moisture and temperature. Increased moisture content or temperature variation may cause internal stresses causing previously flat sheets to bow.

At Plymasters, precautions are taken to minimize this effect. However, once the plywood has left our warehouse we cannot guarantee sheets to remain flat unless fastened. This is particularly important where free standing kitchen/cabinet doors are concerned. When storing panels, stack on a firm raised base with enough support to prevent sagging. Cover the pallet to protect top and edges.
