

# Furnier Birch On Poplar

## Specification Sheet

18mm Euro Birch on Poplar for light weight furniture. It is a high-grade interior ply, with a Euro Poplar core and a Euro Birch Veneer finished. Beautiful and lightweight. This is a decorative interior product that is non-structural.

Matches with Classique Birch.

\* Oversized 2440 x 1220 sheets are intentionally crafted for easy trimming, giving our customers the flexibility to customise them according to their clients' specific requirements. It allows for a perfect edge to be achieved when installing on-site linings.

### Product Info

Code	Sheet Size	Thickness	Veneer	Colour	Weight	Grading
V2112-B	2440 x 1220	12mm	Euro Birch		14kg	AB Poplar Core

### Technical Specs

Colour	Natural timber colourings - European Poplar Core
Durability	Good durability / Interior
Glue bond	E1 - Class 3. Density - 440 - 490Kg/m <sup>3</sup>
Origin	Spain
Environment	Plantation Grown / PEFC 14-34-00002

### Ideal Uses

- Lightweight Furniture
- Lightweight Cabinetry

**Handling & Application** / Classique ply is a lighter weight timber than other plywoods, the highly visual surface will harden once a good quality lacquer is applied. Plywood is a natural product that can be affected by changes in weather conditions: moisture and temperature. Increased moisture content or temperature variation may cause internal stresses causing previously flat sheets to bow.

At Plymasters, precautions are taken to minimize this. However, once the plywood has left our warehouse we cannot guarantee sheets to remain flat unless fastened. This is particularly important where free standing kitchen/cabinet doors are concerned. When storing panels, stack on a firm raised base with enough support to prevent sagging. Cover the pallet to protect top and edges.
