

# Gaboon

## Specification Sheet

Plymasters Marine Grade Gaboon has excellent edge detail. It has an attractive light pink, almost neutral colour, with a consistent grain. Lighter weight than other hardwoods, gaboon is very popular in joinery and linings. Lower grades of gaboon are also available. Available as a BS1088

### Gaboon Standard Marine

Code	Sheet Size	Thickness	Weight	Grading
H1023	2440 x 1220	3.6mm	9kg	BB/CC
H1025	2440 x 1220	9mm	13kg	BB/CC
H1027	2440 x 1220	12mm	18kg	BB/CC
H1036	2440 x 1220	18mm	27.5kg	BB/CC
H1043	2440 x 1220	25mm	38kg	BB/CC

### Gaboon BS1088

Code	Sheet Size	Thickness	Weight	Grading
H1027-B	2440 x 1220	12mm	18kg	BS1088 Marine
H1036-B	2440 x 1220	18mm	27.5kg	BS1088 Marine

### Oversized Gaboon

Code	Sheet Size	Thickness	Weight	Grading
H1031	3100 x 1530	12mm	28.64 kg	BB/CC

Core	Okoume/Gaboon
Certification	FSC
Origin	Italy
Emissions	Class E1

### Ideal Uses

- Furniture and Architectural Fit-outs
- Boat Building
- High-end Cabinetry
- Residential Linings

**Handling & Application /** Plywood is a natural product that can be affected by changes in weather conditions: moisture and temperature. Increased moisture content or temperature variation may cause internal stresses causing previously flat sheets to bow.

At Plymasters, precautions are taken to minimise this effect. However, once the plywood has left our warehouse we cannot guarantee sheets to remain flat unless fastened. This is particularly important where free standing kitchen/cabinet doors are concerned. When storing panels, stack on a firm raised base with enough support to prevent sagging. Cover the pallet to protect top and edges.
