

Gaboon MLH

Specification Sheet

Plymasters Gaboon MLH is a carcass grade plywood with a mixed hardwood core. It has an attractive light pink, almost neutral colour, with a consistent grain. Lighter weight than other hardwoods, Gaboon MLH is very popular in carcass joinery & economy grade wall linings. This panel is imported from South East Asia.

Product Info

| Code | Sheet Size | Thickness | Weight | Grading |
|-------|-------------|-----------|--------|---------|
| H1050 | 2440 x 1220 | 4mm | 7.5kg | BB |
| H1055 | 2440 x 1220 | 6mm | 11.5kg | BB |
| H1060 | 2440 x 1220 | 9mm | 17kg | BB |
| H1065 | 2440 x 1220 | 12mm | 22.5kg | BB |
| H1075 | 2440 x 1220 | 18mm | 30.5kg | BB |
| H1085 | 2440 x 1220 | 25mm | 46kg | BB |

| Core | Eucalyptus Mixed Hardwood |

Ideal Uses

- Interior use
- Carcass Cabinetry
- Furniture and Architectural Fit-outs
- Residential Linings

Handling & Application / Plywood is a natural product that can be affected by changes in weather conditions: moisture and temperature. Increased moisture content or temperature variation may cause internal stresses causing previously flat sheets to bow.

At Plymasters, precautions are taken to minimise this effect. However, once the plywood has left our warehouse we cannot guarantee sheets to remain flat unless fastened. This is particularly important where free standing kitchen/cabinet doors are concerned. When storing panels, stack on a firm raised base with enough support to prevent sagging. Cover the pallet to protect top and edges.
