TIMBER GRAIN MR-MDF MELABOARD PANELS / SPECIFICATION

OVERVIEW / Plymasters Melaboard (Melamine) Range has a natural timber feel finish. Our Melaboard range is pressed onto a MR-MDF substrate. The timber range offers a refined timber texture that enhances the natural characteristics of a timber surface. Used in all forms of joinery these six stylish colours and eight timber grains will add vibrancy and appeal to your next project. Edge tapes are available for all Melaboard products.

USES / Kitchen Fronts & Cabinetry / Laundry cabinetry / Joinery projects

Colour	Charred Elm, Roasted Walnut, Sweet Maple, Nordic Ash, Californian Oak, Winter Birch, Sandy Oak, Dusky Ash
Texture	Embossed Timber Grain
Core	MR-MDF core
Origin	Malaysia
Environment	MDF - E1 Rating

HANDLING & APPLICATION / Melaboard panels are not suitable for use in exterior applications or interior projects where the moisture content would be higher than normal (for eg. a indoor pool or sauna). Melamine has excellent water resistance properties however care should be taken not to expose the edges to high moisture applications. Melaboard panels are low maintenance, cost effective and easy to clean.
